H.E. President Macky Sall

IT'S HERE 2021

Senegal will host the first-ever MSGBC Oil, Gas & Power Conference & Exhibition, taking place 2-3 December 2021 in Dakar, Senegal.

Organized by Energy Capital and Power under the auspices of H.E. President Macky Sall and in partnership with the Ministry of Petroleum and Energy, COS-Petrogas, Petrosen, the African Energy Chamber and various US and Canadian energy industry associations, the conference heralds a new era of investment in West Africa on the back of world-class offshore oil and gas discoveries and several dynamic energy projects that have been put in motion.

MSGBC Oil, Gas & Power 2021 will be the leading platform to showcase West Africa's tremendous achievements in the energy industry. The region has had several world-class oil and gas discoveries

over the last decade attracting major operators like BP, Total, Kosmos Energy, Woodside, Cairn Energy and FAR Ltd. Senegal has been the leading champion of the region's energy industry, having seen BP reach, in 2019, a final investment decision on its first LNG project, Grand Tortue Ahmeyim, which is set to take off as the world emerges from the COVID-19 pandemic.

The promise of significant gas revenues also prompted the implementation of a global gas-to-power framework aiming to fuel the region's growing demand for energy, as well as opportunities for exports. A lower electricity price will boost the competitiveness of the local industry and provide greater opportunities for consumers. MSGBC Oil, Gas and Power 2021 will also highlight the growing importance of technology in the region's energy industry.

THE AGENDA

MSGBC | 2021 CONFERENCE & EXHIBITION
OIL, GAS & POWER | #NewWaveOfInvestment

OBJECTIVES

To attract new investment into West Africa and launch a new era of investment for the country's energy sector.

To promote the region's attractive business environment and opportunities across the energy value chain.

To communicate H.E. Macky Sall's presidential vision of the energy sector and its importance as a key driver of economic Growth.

To promote local content and the involvement of the national private sector through international partnerships.

To create a national platform for constructive dialogue on natural resource management, investment and initiatives for enhancing the productivity and sustainability of the current power matrix.

Endorsed by :

La Présidence de la
République du Sénégal

Ministry of Petroleum and
Energies

Partners :

WHY PARTICIPATE?

THE OFFICIAL ENERGY CONFERENCE

The only event in Senegal that opens national and regional perspectives on the entire energy value chain, including renewable energies.

NATURAL GAS REVOLUTION

Spotlight on the region's tremendous opportunities in natural gas, ranging from gas-to-power opportunities, monetization strategies and domestic use initiatives.

THE POWER OF LOCAL CONTENT

Senegal's government will use MSGBC Oil, Gas & Power 2021 to show its commitment to involving the local private sector in the country's energy revolution.

HIGH POTENTIAL FOR EXPLORATION

The region has seen several major discoveries over the last decade and it is still a relatively unexplored territory.

A NEW ERA OF INVESTMENT

Showcase the region as a land of investment opportunities and the start of a new era of economic growth.

A NEW WAVE OF INVESTMENT

POINTS DE DISCUSSION

The flow of U.S. finance and technology to the region

Regional cooperation in energy development

Promoting cross-border synergies for offshore energy developments

Exploration opportunities and new licensing round

Natural gas revolution: Gas monetization and gas-to-power opportunities

Power, electrification and renewable energy: the key to economic development and social inclusion

Key sectors for energy development: logistics, finance and regulatory framework

Empowerment of local capabilities

Oilfield services and technology

WHY WEST AFRICA?

CONFIRMED HYDROCARBONS PROVINCE

Several world class discoveries and billions of barrels in oil and gas reserves propelled West Africa into the realm of confirmed hydrocarbons provinces. As the home of the relatively unexplored MSGBC basin, the region seeks to unveil the formidable potential of its natural resources.

AN ATTRACTIVE BUSINESS ENVIRONMENT

Political leaders in the region wish to build on discoveries and attract more exploration and production companies. Furthermore, efforts are being made to maintain control over the region's resources and ensure generated revenues benefit local citizens in the long term.

POWER: A KEY DRIVER OF ECONOMIC GROWTH

Regional leaders are striving to ensure local development by providing universal access to electricity, increasing competitiveness by supplying affordable power to local companies and protecting the environment with cleaner energy.

LOCAL CAPABILITIES AT THE CENTER OF THE EQUATION

Skills transfer, strengthening local capabilities and rewarding local companies are key pillars to West Africa's energy sector development.

HOW TO GET INVOLVED

SPEAK

We offer a number of speaking opportunities, including keynotes, presentations, panel discussions, or moderator slots. Please contact our programming team for opportunities.

ATTEND

Whether it's the MSGBC Oil, Gas & Power 2021, our networking functions or any of our roadshow visits, we invite you to contact our team to engage, connect and invest.

SPONSOR

Our menu of sponsorship products presents a multitude of branding and VIP access opportunities, from owning an event function, to content and online promotion and media management, to a full-time relationship broker.

EXHIBIT

Book raw space on our exhibition floor or hire our expert team of designers and stand builders for customized or pre-designed stand solutions. Contact our commercial team to confirm your package.

PARTNER

We partner with leading media and industry and business associations. You can apply for partnerships that offer complimentary access to AOP conferences, distribute publications, participate as moderators on panel discussions and get exposure with branding on conference materials.

VIEW OUR CONTENT

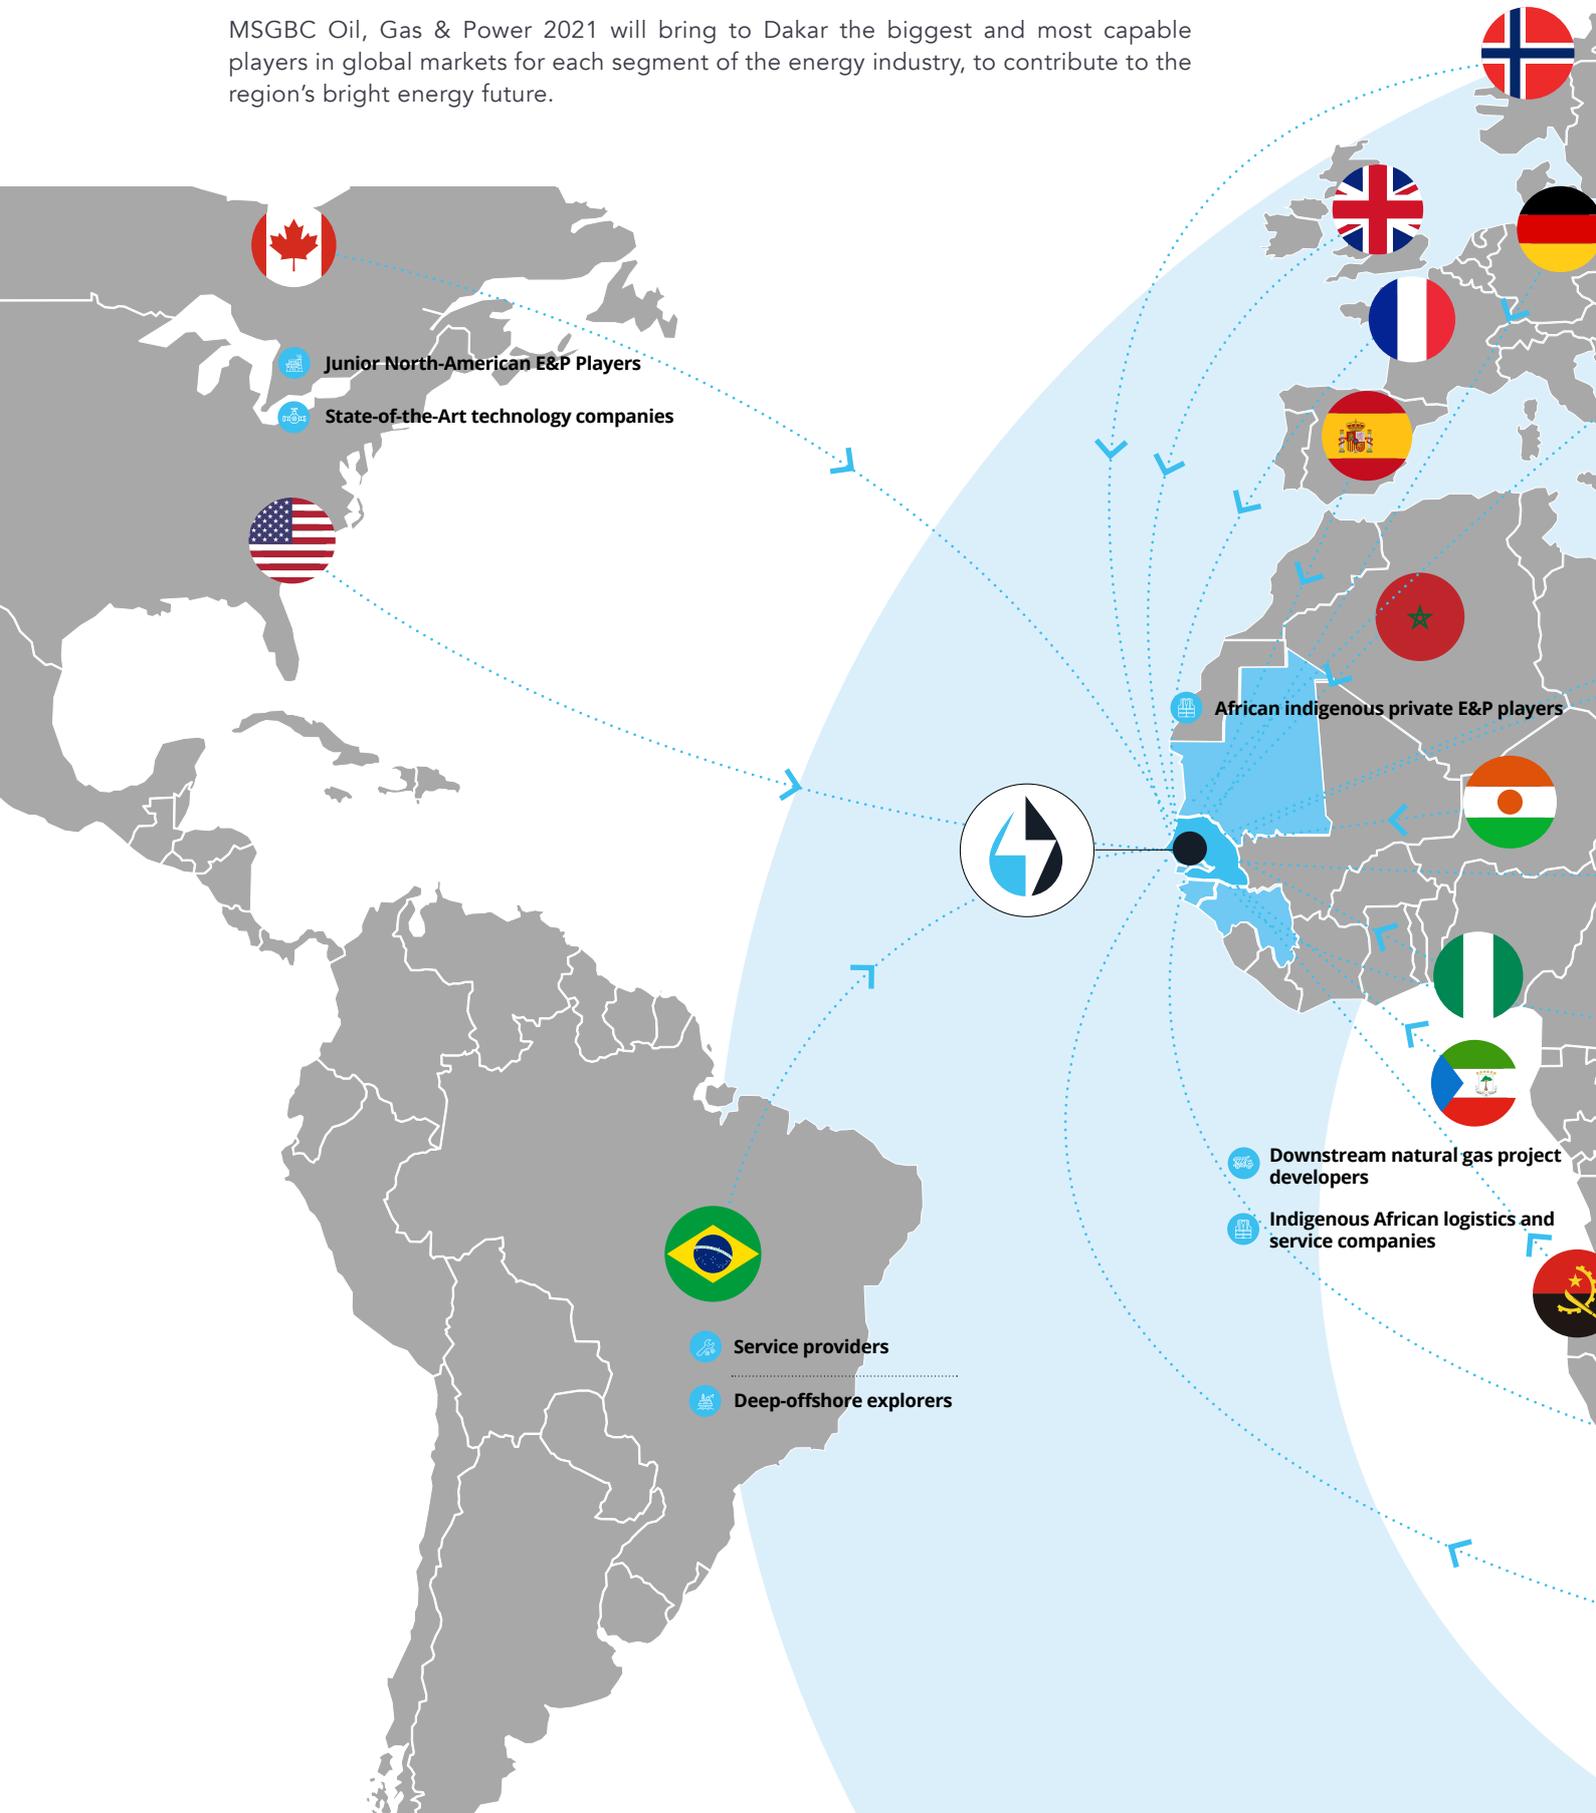

Check out energycapitalpower.com daily for Africa petroleum and power news, interviews and op-eds from the AOP community, plus analysis and insights from industry experts.

WEST AFRICA'S GLOBAL ENERGY EVENT

MSGBC Oil, Gas & Power 2021 will bring to Dakar the biggest and most capable players in global markets for each segment of the energy industry, to contribute to the region's bright energy future.

- European Renewable Energy Investment Funds
- Equipment suppliers
- Knowledge Transfer
- Expertise in legal-framework development

- Major services companies
- Major NOC investments
- Gas-based economy knowledge transfer
- Strategic supply partnerships

- Middle-Eastern Major and Junior E&Ps
- Project financing solutions

- Infrastructure financing
- NOCs E&P frontier players
- Specialized service companies
- State-Owned Major renewable energy players

- Asian NOCs
- Major downstream and gas-based industry players

- IPPs
- Technology solutions and services

Frontier explorers

Renewable energy industry leaders
